Safety Instructions:

- Ensure that the product is properly assembled and installed to ensure stability and safety.
- Before use, observe the maximum total load capacity of 200 kg; this must not be exceeded in order to prevent overloading and structural damage.
- Be aware of the risks of injury due to improper handling or unbalanced loading of the shelves.
- Avoid placing heavy or unstable objects on the top shelves to reduce the risk of them falling over.
- Take suitable safety precautions for the storage of hazardous substances.
- Carry out regular checks for wear or damage to the doors and housing.
- The product should be positioned so that it cannot fall over or tip over in order to avoid the risk of injury.
- Please note that the product is not suitable for children under the age of 3, as there is a risk of choking on small parts.
- Assembly should be carried out by at least two people to ensure safe handling.
- The doors must be securely locked to prevent unauthorised opening.
