Article Numbers: 156391, 156390

Safety Instructions:

- Improper handling can cause the cabinet to tip over, make sure it is properly anchored and place it on stable surfaces.
- Keep the cabinet away from sources of heat and moisture to prevent material damage.
- Only use the cabinet for the intended load of up to 300 kg and place heavy objects on the lower shelves to ensure stability.
- Provide instructions for safe installation, use and maintenance and safety warnings regarding the dangers of improper use.
- Take care when handling the doors due to the risk of crushing.
