Safety Instructions:

- Ensure a secure footing to prevent tipping over.
- Do not place heavy objects too high to avoid injury.
- Ensure that the fastening elements are used correctly during installation.
- Observe the appropriate load-bearing capacity of the shelves for safe use.
- For the use of heavier objects, do not exceed the total load capacity of 300 kg.
- Pay attention to sharp edges and corners to avoid injuries.
- Do not overload the shelf; ensure that the weight is evenly distributed.
- When fitting and adjusting the shelves, ensure that they are correctly secured.
