Article Numbers: 156395, 156394

Safety Instructions:

- Risk of toppling if the cabinet is unsecured, especially under high loads.
- Maximum total load capacity: 200 kg. Take care not to overload the cabinet.
- Ensure that the doors are properly closed to prevent objects from falling out.
- Keep the cabinet away from heat sources to avoid the risk of deformation of the material.
- When used in environments with chemicals, care should be taken to ensure that no harmful interactions occur.
- Pay attention to the height of the cabinet (1690 mm) to minimise the risk of falling when storing or retrieving items.
- The cabinet should be used under the supervision of children to avoid injury.
- For assembly, ensure that the cabinet is standing on a stable surface.
- Check regularly for stability and integrity to avoid injuries.
- Store small parts safely to minimise the risk of injury or spillage.
- Keep children away from the assembly and use of the cabinet to avoid accidents.
