Safety Instructions:

- Mount the product stably to prevent it from falling over.
- Strong materials such as galvanised sheet steel ensure stability and safety.
- Provision of safe assembly instructions for the correct assembly of all parts.
- Observe the maximum total load capacity of 240 kg for heavy objects in the boxes.
- Children should not play unsupervised in the vicinity to avoid danger from small parts or high shelves.
- Not suitable for children under 3 years of age as small parts could pose a choking hazard.
- Take particular care when handling the shelf to prevent it from tipping over.
- Place the shelf on a stable and level surface to prevent it from tipping over.
- Ensure that storage boxes are inserted correctly to prevent them from falling out.
