Safety Instructions:

- Ensure that the cabinet is placed on a stable and level surface to prevent it from tipping over.
- Avoid overloading the shelves to minimise the risk of breakage or overloading.
- Keep the cabinet away from heat sources and direct sunlight to prevent material deformation.
- Close the doors of the cupboard to prevent stored items from falling out in an uncontrolled manner.
- Check the safety locks and latches regularly to ensure that they are working properly.
- Do not exceed the maximum total load capacity of 300 kg.
- Use suitable supports when the cabinet needs to be lifted or moved to avoid injury.
- Do not place heavy objects on the top shelves to minimise the risk of them falling over.
- Keep the storage areas tidy and free of obstacles to avoid tripping hazards.
- Users should follow the instructions during installation to ensure firm and secure connections.
- Carry out regular checks of the cabinet contents to ensure that the cabinet is not overloaded.
