Safety Instructions:

- Ensure safe use of the product and correct positioning to prevent tipping.
- The cabinet should be securely fixed due to its size and weight.
- Products made of polypropylene may not be temperature-resistant above 100 °C.
- Improper handling of food or chemicals can be dangerous, especially if the boxes are not sealed.
- Wipe surfaces regularly to avoid dust and dirt accumulation.
- Take care when handling heavy materials; maintain a healthy back posture and avoid crushing injuries.
- Observe the maximum total load capacity of 300 kg of the shelves to avoid overloading.
- The storage of chemicals or hazardous substances in the boxes is not permitted.
- Children should be kept away from the use and vicinity of the product.
