Safety Instructions:

- Risk of suffocation due to loose parts or improper assembly.
- Risk of injury due to improper use or overloading of the monitor arm.
- Observe and do not exceed the maximum load of 8 kg.
- Make sure that the VESA mount is installed correctly to ensure the safety of the display.
- Ensure that the monitor arm is mounted stably to prevent it from tipping over.
- Take care when positioning the monitor arm on stable surfaces.
- Ensure that the monitor is securely attached to the VESA mount.
- Users should adjust the monitor arm correctly and check its stability regularly.
- Keep away from children to avoid the risk of injury.
- When mounting, ensure that the table top is reinforced, especially when using table clamps or table grommets.
