Safety Instructions:

- Place the magazine cabinet in a stable position to prevent it from tipping over, especially when under maximum load.
- Do not exceed the maximum load of 320 kg on the shelves to avoid safety risks.
- Check the cupboard regularly for damage and wear, check the stability and condition of the shelves before use.
- Do not place objects that are difficult to access or unsafe on top shelves to prevent them from falling.
- Store the cabinet in a corrosion-free environment to avoid environmental damage.
- Do not place the cabinet near heat sources to avoid material damage.
- Provide installation and usage instructions to ensure safe use.
