Please note the technical data of the products!

Article Number: 301253

Safety Instructions:

- Check whether the cable is damaged before use.
- The cable must not be subjected to heavy loads or overheated for long periods of time.
- The extension cable is only suitable for indoor use and not for outdoor use.
- Avoid using the cable in a damp environment to minimise the risk of electric shock.
- Special care when used by children: The cable is equipped with a child safety lock, but should be kept out of the reach of children.
- The illuminated rotary switch can become hot; do not touch it directly to avoid burns.
- Do not use near heat sources or flammable objects.
