Safety Instructions:

- Ensure that the cabinet is only used for its intended purpose and is not overloaded.
- Before installation, check that all parts are present and undamaged.
- Use the product in accordance with the enclosed installation and operating instructions.
- Regularly check the stability of the cupboard and the compartments, especially when fully loaded.
- Ensure that the cabinet is placed on a firm, level surface to prevent it from tipping over.
- Ensure that there is no risk of injury when opening the doors.
- Protect the product from moisture to prevent rusting and other damage.
- The product is only suitable for use in closed rooms.
- Avoid overloading the shelves beyond the specified total load capacity of 380 kg.
- The product contains metal parts that may pose a risk of injury.
- Safety information must be enclosed in the respective national language.
- Adults should provide assembly assistance to prevent injuries during assembly.
