Manufacturer/Responsible Person: Saebu Morsbach GmbH, Zum Systembau 1, 51597 Morsbach-Schlechtingen, Deutschland
E-Mail: info@saebu.de

Please note the technical data of the products!

Article Numbers: 39062, 39058, 39054

Safety Instructions:

- Ensure that all parts are correctly and stably assembled when assembling the material container to avoid unstable constructions.
- Take care not to exceed the maximum standing load of 500 kg/sqm, as structural instability must be avoided. Store safely with the load distributed on the wooden floor.
- The wooden floor should be checked regularly for signs of wear or damage to prevent accidents.
- The container should only be unloaded by suitable personnel using appropriate crane or forklift techniques in order to avoid injuries.
- The fleece coating on the underside of the roof can bind condensation water; please ensure that it is not combined with continuous rooflights to avoid moisture problems.
- No tools are required to assemble the fittings; make sure that no parts are missing or incorrectly installed.
- Make sure that the container is only placed on firm, level surfaces to ensure stability.
- Take care when mounting on uneven surfaces.
