Article Numbers: 177915, 177914, 177913, 177912

Safety Instructions:

- The item is supplied with standard clamps for table thicknesses of 1.2 - 2.5 cm. For table thicknesses of 2.5 cm or more, suitable fixing clamps are also available at no extra charge.
- The PET felt is resistant to alcohol-based disinfectants up to 85%, but the surface can be damaged if used improperly. It is recommended to use suitable cleaning agents.
- Not easily flammable (fire class b1). The side panel should be kept away from open flames or extreme heat sources.
- Absorbs noise (sound absorption class B, $\alpha_w = 0.8$).
- The partition wall should be installed in accordance with the instructions supplied, especially for table thicknesses over 2.5 cm, to ensure stability and safety.
- Keep the partition away from humid conditions to ensure material quality and integrity.
- The side panel is not designed for use by children and should be kept out of their reach. Ensure that the partitions are not used as toys.
- Ensure correct and safe assembly. Ensure that the elements are securely connected to each other to prevent the partitioning system from tipping or falling over.
- The delivery only includes a single side panel. Additional parts must be ordered separately.
- The acrylic viewing window can break if handled improperly; take care when cleaning and handling.
