Article Numbers: 461780, 461779, 461778, 461777, 461776, 461775, 461774

Safety Instructions:

- Use the cabinet in accordance with the manufacturer's instructions and local regulations for the storage of hazardous substances; consult safety data sheets, especially for toxic and hazardous chemicals.
- Cabinet fire-resistant according to F90; avoid direct contact with fire sources and observe flame effectiveness.
- Keep flammable liquids of GHS categories 1-3 away from heat and naked flames; store only in the intended quantities.
- Protect against unauthorised access, use security locking with profile cylinder lock, check lock regularly.
- Ensure regular inspection and maintenance of the ventilation system to prevent explosion and health hazards.
- Dispose of contaminated materials and chemicals in accordance with local regulations and take immediate action in the event of a spill.
- Ensure safe handling of chemicals, wear appropriate safety equipment; improper handling may cause skin and eye irritation.
- Do not use in flammable areas and ensure that there are no flammable materials in the immediate vicinity.
- Check for leaks before use and ensure that the cabinet is correctly and securely closed, especially when not in use.
- Ensure that the interior is adequately ventilated before use, especially when storing flammable liquids.
- Not suitable for children under 3 years of age due to the risk of chemical substances; observe safety yellow as a warning colour.
- Avoid overloading the shelves beyond the specified load capacity (75 kg).
- For indoor use only; ensure correct handling and use according to information.
