Safety Instructions:

- Only suitable for the storage of hazardous substances. There is a risk of chemical reactions if used improperly.
- The cabinet must be securely locked to prevent access by unauthorised persons.
- In the event of chemical leaks, take immediate action in accordance with the safety data sheet for the substances.
- The cabinet must be checked regularly for leaks and integrity.
- Suitable for the storage of GHS categories 1-3, hazardous chemicals and water-polluting substances of GHS 1-4.
- Avoid storing unauthorised substances or substances that are not suitable for the safety class of the cabinet.
- For indoor use only.
- Wear suitable protective equipment when handling chemicals.
- Take care when handling flammable liquids and hazardous chemicals.
- Check the ventilation system regularly to ensure that it is working properly.
- Always keep the hinged doors closed when the cabinet is not in use.
- Check the floor drip tray regularly for leaks and empty it.
- Do not exceed the permissible load capacity of the shelves.
