Safety Instructions:

- Fire resistance: Safety cabinet is F90 fire resistant.
- Safe handling of hazardous substances: Store toxic and water-polluting substances in accordance with regulations.
- Observe ventilation: Use the integrated ventilation system to avoid explosive atmospheres. Observe the ventilation requirements for any vapours or gases from stored substances.
- Ensure access protection: profile cylinder lock on swing and folding doors ensures reliable security. The product must be locked when not in use.
- Note the low load capacity: Shelves and perforated inserts have a load capacity of 75 kg, do not exceed this.
- Indoor safety guidelines: Use indoors only to avoid environmental risks. Suitable for indoor use, do not use outdoors.
- Prevent accessibility for children to avoid accidental opening.
