Article Numbers: 462504, 462503

Safety Instructions:

- Only suitable for the storage of toxic substances, aggressive chemicals and flammable liquids. Take care during storage and use a safety lock to prevent unauthorised access.
- The cabinet may only be used indoors.
- Regularly check the tightness, integrity and proper functioning of the exhaust air systems.
- Risk of suffocation if used or stored improperly.
- Do not store flammable liquids of GHS categories 1-3 in the vicinity of heat sources.
- Warning: Automatic door closing can lead to crushing injuries. Pay attention to the acoustic warning signal before automatic closing and keep your distance from the folding doors.
- Fire resistance F90 - protection against fire hazard.
