Safety Instructions:

- Only use the cabinet for the intended hazardous substances and observe the applicable storage regulations.
- Observe safe storage of toxic substances and flammable liquids.
- Avoid storing flammable substances near heat sources and protect from direct sunlight and extreme temperatures.
- Avoid overloading the shelves.
- Allow the folding door to close properly and check the automatic closing mechanism.
- Observe the warning signal before closing the door to avoid injury.
- Use a profile cylinder lock to prevent unauthorised access.
- Explosion protection: Only use the product with recognised exhaust air systems.
- Check the technical exhaust air system connection regularly and use a ventilation system.
- Install the cabinet in a well-ventilated area to avoid health risks.
- Only use the safety storage cabinet indoors.
- The cabinet should only be opened and used by authorised personnel.
- Observe fire resistance (F90).
- Regularly check storage conditions to ensure conformity with safety regulations.
- Read the operating instructions and safety information before use.
- Provide written instructions and safety information for safe use.
