Article Numbers: 463213, 463212, 463211, 463210

Safety Instructions:

- Wear suitable personal protective equipment such as protective clothing, gloves and eye protection.
- Protect the product from heat sources and naked flames.
- Only use in well-ventilated areas. Ensure that the ventilation system is working properly.
- For indoor use only, not suitable for outdoor use to avoid environmental influences.
- Only store flammable liquids in suitable, sealed containers.
- Observe suitable protective measures for the storage of flammable liquids and toxic substances.
- There is a risk of fire if used improperly.
- Read and follow all instructions for use and safety instructions carefully.
- Access for authorised persons only. Use a cylinder lock to prevent unauthorised access.
- Carry out regular maintenance of the cabinet to ensure safety.
- Carry out regular checks on the functionality of the ventilation system and the cabinet.
- Ensure regular inspection of the exhaust air system.
- Ensure that the cylinder lock is functional to prevent access by unauthorised persons.
- A technical exhaust air system must be connected for safe operation.
- Disposal according to applicable laws for hazardous waste.
- In the event of leaks or accidents, notify the relevant authorities immediately.
- Only use the cabinet in accordance with the manufacturer's guidelines and load it in a controlled manner.
- Avoid the smallest tripping and safety hazards, as the cabinet is heavy.
- Observe the relevant safety regulations when handling hazardous substances.
- Read the safety data sheets of the stored substances before use.
