Safety Instructions:

- Ensure that the container is mounted on flat, firm and level surfaces to ensure stability.
- Take care when unloading the goods; use a suitable crane or forklift for this purpose. Unloading on site by a suitable crane or forklift of the recipient.
- Before assembly, ensure that all parts are complete and undamaged.
- Do not exceed the permissible standing load of 500 kg/sqm. Product is suitable for a standing load of 500 kg/sqm; avoid excessive loads. Suitable for a static load of 500 kg/sqm with distributed load.
- Using the container on uneven or unstable surfaces could cause it to tip over. Take care when installing on uneven or soft surfaces, as there is a risk of stability.
- Please note that the fleece coating on the underside of the roof absorbs condensation and should be checked regularly. Cannot be combined with continuous rooflights.
- Ensure that the accessories are installed correctly to avoid injury during use.
- Final assembly of the pre-assembled units only under official supervision. Final assembly should be carried out using a lorry-mounted crane on request.
- Use only in accordance with the manufacturer's recommended specifications.
- All site conditions and risks should be taken into account when using the container.
- Suitable accessories for reinforcement and storage space optimisation can be provided on request.
- Safety instructions and instructions for safe use must be included with the product.
