

Product Safety Information

Material container MC 1360, different models

Manufacturer/Responsible Person: Saebu Morsbach GmbH, Zum Systembau 1, 51597 Morsbach-Schlechtingen, Deutschland
E-Mail: info@saebu.de

Please note the technical data of the products!

Article Numbers: 39145, 39128, 39121

Safety Instructions:

- Ensure that the installation is carried out on level, solid and horizontal surfaces to prevent the appliance from falling over.
- When using truck-mounted cranes for final assembly, the recommended safety procedure must be followed to avoid accidents.
- Do not exceed the standing load of 500 kg/sqm to avoid structural damage.
- Use suitable cranes or forklifts for unloading to prevent injuries and damage.
- Check the fleece coating regularly for mould or moisture, as it can bind condensation water.
- Please note that the fleece coating on the underside of the roof cannot be combined with continuous rooflights.
- Final assembly should be carried out by trained personnel using a suitable crane or forklift.
- Wear suitable personal protective equipment when handling the prefabricated units.
- Ensure that all components are properly secured to avoid injury.
- Find out about possible additional safety precautions in connection with accessories.
