Safety Instructions:

- Make sure that small children do not play with the cupboard unsupervised to avoid the risk of choking on small parts.
- The furniture should always be placed on a level, stable surface to prevent it from toppling over.
- Ensure that the cabinet is placed on a stable, level surface to prevent it from tipping over.
- Please do not overload the drawer and doors and do not overload the contents of the cupboard to avoid damage and the risk of tipping.
- Use only for the intended purpose to avoid injury.
- When attaching the shelves, ensure that they are correctly fitted. Avoid overloading the shelves with heavy material.
- Caution: Cupboard may be heavy and require support when lifting.
- Keep the keys to the lock out of the reach of children and use the lock to prevent unauthorised access to the contents.
- Open the drawer carefully to avoid crushing injuries.
- Caution: The sharp edges of the steel can cause injuries.
- Note: Use in areas with water or moisture can cause corrosion.
- In the case of an additional electrical equipment module, the corresponding safety precautions for electrical devices must be observed.
- To avoid safety risks, do not modify the product improperly.
- Recommend the use of personal protective equipment (PPE) when working with the cabinet.
- Regularly check the condition of the lock and door hinges to ensure that they are working properly.
