Manufacturer/Responsible Person: Saebu Morsbach GmbH, Zum Systembau 1, 51597 Morsbach-Schlechttingen, Deutschland
E-Mail: info@saebu.de

Please note the technical data of the products!

Article Numbers: 39147, 39130, 39123

Safety Instructions:

- Ensure that the material container is placed on stable and level surfaces to prevent tipping or overturning.
- Take care when loading and unloading with a crane or forklift, use suitable equipment and ensure that it is properly maintained.
- The maximum standing load of 500 kg/sqm must not be exceeded in order to prevent structural damage or accidents. Check the load-bearing capacity of the wooden floor before stepping on it.
- Ensure that the container is securely sealed off to prevent accidents or unauthorised access.
- Pay attention to corrosion protection and carry out regular inspections to ensure safety and durability.
- When applying the fleece coating to the underside of the roof, pay attention to the possible risk of slipping and sufficient ventilation to prevent mould growth.
- The use of unauthorised accessories may impair safety. Modifications to the design or the use of non-recommended parts may invalidate the warranty.
- Carry out all installation work in accordance with the instructions to avoid injury.
- Wear suitable protective clothing to avoid injury from sharp edges or heavy parts.
