## Safety Instructions:

- Beware of electric shocks if used improperly, especially when accessing the USB port.
- Risk of suffocation from small parts if they fall off or are not properly secured.
- The product contains non-replaceable LED lamps, therefore do not attempt any modification or replacement.
- Please ensure that the product is placed on a stable surface to prevent it from falling over.
- The light should not be used near water to avoid the risk of electric shock.
- Before cleaning, pull out the plug and ensure that the light is completely switched off.
- The USB charging function should only be used for devices intended for this purpose in order to avoid the risk of overheating.
- Ensure adequate ventilation to prevent the light from overheating.
