Safety Instructions:

- Due to the high load capacity of up to 300 kg when stacking, ensure that the stacking containers are stably organised and secured against falling over. Do not exceed the maximum load capacity.
- Do not use the container in areas exposed to temperatures below -40 °C or above +60 °C to prevent material damage. Avoid contact with hot surfaces.
- The container should not be used for medicines, chemical substances or direct contact with food unless this has been expressly authorised by the manufacturer.
- Before use in the food industry, observe the hygiene guidelines to avoid contamination. Keep smooth interior walls clean and hygienic.
- Check for damage before use.
- Users should pay attention to their posture when lifting and carrying the container to avoid injury.
- Ensure the correct storage method and only use the container on a stable surface to prevent it from tipping over.
- Not suitable for living plants.
