Safety Instructions:

- Pay attention to food contact to avoid contamination and keep the container clean and hygienic.
- Do not exceed the maximum load of 300 kg to avoid overloading.
- Only use the castors on level surfaces and check their proper function regularly to avoid accidents.
- Check containers regularly for cracks or damage and use gloves if there are sharp edges or cracks.
- Keep out of the reach of children to avoid the risk of injury.
- Do not store or use in extreme temperatures outside -40 to +60 °C to avoid damaging the material.
- Use suitable, food-safe cleaning agents for cleaning.
- With heavy contents, ensure even loading to prevent tipping.
- The container is not suitable for permanent outdoor use as UV rays can damage the material.
- Avoid stacking the container in unsafe environments to prevent it from tipping over.
