Article Numbers: 882479, 882478, 882477, 882476, 882475, 882474

Safety Instructions:

- Avoid sharp edges during installation to prevent injuries.
- When securing valuables, use the cylinder lock and check it regularly to make sure it is working properly. It does not offer absolute protection against theft, so valuable items should be stored carefully.
- Ensure that the locker is placed on a stable, level surface to avoid instability, tipping over and the associated injuries.
- Avoid storing damp clothing for long periods of time to ensure air circulation.
- Place the locker out of the reach of children to prevent improper use.
- When setting up, beware of direct heat and moisture to prevent material integrity and corrosion.
- Follow the assembly instructions to avoid accidents during assembly. Make sure that no small parts that could pose a choking hazard are lost.
- Only use the locker for its intended purpose and do not overload it to avoid damage and instability.
- Regularly maintain and check the door mechanisms and keep the door openings clear to prevent crushing and injuries.
- If necessary, a security check of the cylinder lock should be carried out before use to prevent vandalism.
- Select safe use by adults.
- Label content to avoid confusion.
