Safety Instructions:

- Ensure that the safe is properly anchored, as models weighing less than 1000 kg must be anchored. Models weighing 125 kg must also be anchored.
- Agree the insurance cover and the sums insured with your insurer, especially for confidential documents and valuables.
- The safe should only be used for its intended purpose in order to avoid safety risks, especially when storing narcotics.
- Take care not to cover the holes for the floor and rear wall anchoring to ensure stability.
- In the case of an import from a non-EU country, the safety requirements of the European Union should be observed.
- If the safe needs to be opened, all keys should be kept in a safe place to prevent unauthorised access.
- We recommend that you check the safe regularly to ensure that it is working properly.
- Improper handling can result in injuries due to the heavy door.
- The manufacturer must ensure that the safe has been manufactured in accordance with the general safety requirement.
