Safety Instructions:

- The door of the key cabinet can only be opened up to an angle of 90 degrees; watch out for people and objects in the movement area.
- The key cabinet must be securely anchored to the wall to prevent it from tipping over or being pulled out.
- The electronic lock is operated with a user code; choose this carefully and keep it in a safe place.
- Only use the enclosed batteries and dispose of them in accordance with local environmental regulations.
- The key cabinet is not suitable for children under the age of 14 and should be placed out of reach of children.
- Warnings, operating instructions and safety information should always be easily accessible and easy to understand.
- Check the electronic lock regularly and replace the batteries promptly if necessary.
- Be aware of the potential risk of suffocation from small parts if used incorrectly.
- Suitable tools and personal protective equipment must be used during installation and assembly.
