Safety Instructions:

- Only sharpen at the intended angle and do not use excessive force.
- Keep the sharpener away from children to avoid injury from sharp edges.
- Do not use the sharpener on materials that are not designed for it; this can lead to damage.
- Make sure that the handles are folded away after use to prevent injury or damage.
- Clean the sharpener after use according to the instructions to prolong its service life.
- Only use the sharpener dry or with water, never with oil.
