Safety Instructions:

- Choking hazard due to loose or detachable parts that could be considered small parts; not suitable for children under 3 years of age.
- Risk of injury from sharp edges or corners; avoid injury through proper handling.
- Risk of slipping due to moving castors; ensure that the castors are securely locked and checked regularly.
- Ensure that the mounting devices are used correctly to ensure a secure stand and stable installation.
- Possible risk of instability if several panels are connected without sufficient support.
- Beware of the risk of tipping over if the unit is moved incorrectly.
