

Product Safety Information

Sump tray Bauer AWA 21, steel, orange, L 2650 x W 1460 x H 863 mm, 1000 l, for 2 x 1000 l IBC, 1 waste attachment, 1 grating

Please note the technical data of the products!

Article Numbers: 132880, 132879, 132878, 132877, 132876, 132875

Safety Instructions:

- Store and handle hazardous substances safely to prevent leakage.
- Do not use damaged containers or equipment.
- Wear protective clothing such as gloves, safety goggles and respirators when working with hazardous materials.
- Only use the drip tray for the intended substances and for non-flammable and non-aggressive substances.
- Carry out regular inspections for corrosion, rust or structural damage to the drip tray.
- Ensure safe access to the drip tray and keep it on a stable, level surface to prevent accidents and tipping.
- Empty and clean the drip tray after use to avoid residues.
- When using forklift trucks or pallet trucks, observe the load capacity of 1000 kg/m² and take safety precautions.
- Carry out regular maintenance and inspections to ensure the integrity of the drip tray.
- Use suitable materials and safety precautions when storing and handling hazardous substances.
- Disposal of hazardous waste in accordance with applicable legal regulations.
- Do not place the drip tray near heat sources, explosive materials or in direct sunlight.
- Do not load the drip tray above the maximum load capacity of 1000 kg/m².
- Ensure that the drip tray is only used for suitable IBC containers.
- Take care when cleaning: Chemical substances can attack materials.
- In the event of a leak, immediately take measures to collect and dispose of the hazardous substance.
