**Sump tray Bauer AWA 32, steel, orange, L 3850 x W 1460 x H 780 mm, 1000 l, for 3 x 1000 l IBC, 2 waste chutes, 1 grate**

Please note the technical data of the products!

**Article Numbers:** 132892, 132891, 132890, 132889, 132888, 132887

## Safety Instructions:

- Pay attention to slippery surfaces when handling the drip tray, especially if they come into contact with liquids.
- Use suitable personal protective equipment (PPE), such as gloves and safety goggles, when handling harmful hazardous substances.
- Make sure that the drip tray is stable and level to prevent it from tipping over, overflowing or slipping.
- Regularly check the integrity of the drip tray and the IBC containers to prevent leaks. Regular inspections of the wall structure and functionality are essential.
- Keep flammable materials away from the product and the operating environment to minimise the risk of fire.
- Do not overload the drip tray - observe the maximum load capacity of 1000 kg/m<sup>2</sup>.
- Only use forklift trucks or pallet trucks in accordance with the operating instructions and suitable equipment.
- In the event of large spills of hazardous substances, report them immediately to the responsible authorities.
- Only suitable for the storage of IBC containers and authorised containers to prevent overflow and leakage.
- If handled incorrectly, there is a risk of injury from the grating and unsafe lifting or loading of hazardous materials.
- Store hazardous substances safely to prevent damage to the environment and health. Only suitable for the storage of authorised substances.
