Article Number: 178143

Safety Instructions:

- Attention: Heating module is not waterproof; must be installed in a dry, frost-free location.
- Recommended wall mounting height: 1.5 m to ensure access for using the defibrillator.
- Caution during use: The appliance has mechanical and electrical components that can cause injury if handled incorrectly.
- Warning: The defibrillator is only suitable for outdoor use if the box is properly installed and closed.
- The viewing window is impact-resistant, but not indestructible. Please handle with care.
- Risk of suffocation from small parts during assembly; use assembly assistants.
- Note: The alarm function can be activated by incorrect handling; observe the user manual.
- Use only for the intended purpose; do not use as a storage cabinet.
