Safety Instructions:

- Avoid overloading the table; maximum load capacity is 60 kg dynamic and static.
- Ensure that the table is placed on a stable, level surface to prevent tipping or wobbling.
- Lay cables safely through the passages provided to avoid tripping hazards.
- Follow the assembly instructions carefully to ensure safe use; check all screws and connections.
- Keep the table away from water and moisture to prevent damage to the surface.
- The height of the desk should be checked regularly and adjusted correctly to ensure stability; observe the height range between 675 mm and 895 mm.
- Ensure that children do not use the table unsupervised; risk of suffocation from small parts.
- Take care when handling sharp edges of the table top or frame to avoid injury.
- Do not use the product improperly or overload it; observe the maximum load capacity of 60 kg.
- Use the desk at the prescribed height to avoid ergonomic problems.
- In the event of damage or wear, carry out repairs immediately.
- Avoid sharp and hot objects on the tabletop to prevent damage.
- This product is only suitable for indoor use and not as play equipment.
- Choking hazard due to small parts, not suitable for children under 3 years.
- The height should be adjusted without involving body parts to avoid the risk of crushing.
- Regular inspection of the table parts and screws is recommended to ensure safety.
- Read the user instructions for information on correct installation and use to avoid operating errors.
- The desk is not designed for use by children; supervision is necessary.
