Safety Instructions:

- The desk should be placed on a stable and level surface to avoid the risk of tipping or wobbling. Use levelling screws for uneven floors.
- Set the height of the table correctly to avoid crushing. The height adjustment should only be carried out with a firm stand and without a load.
- Ensure that the maximum dynamic and static load of 60 kg is not exceeded to prevent material damage and instability.
- Cables should be neatly stowed away and routed through cable outlets to avoid tripping hazards and the risk of electric shock.
- Please ensure that the table legs are securely mounted to prevent tipping and falls.
- Only use the table for its intended purpose and in accordance with the assembly and safety instructions provided.
- Avoid using the table in damp environments or near heat sources to prevent damage to the table top. Use mild detergents for cleaning.
- Regularly check the stability and functionality of the floor levelling screws.
- Ensure safe use through correct installation with the parts and tools supplied.
