Safety Instructions:

- Ensure that the table is stable and secure on a level surface to prevent it from tipping over or wobbling.
- Avoid overloading: Maximum 60 kg load (dynamic and static).
- Check the height setting regularly and only adjust within the range of 675 to 895 mm to ensure stability and functionality.
- Read and follow all instructions during assembly. Tighten parts to ensure stability.
- Do not allow children to play unsupervised at the table and keep small parts out of their reach.
- Route electronics and cables correctly. Use cable apertures to minimise the risk of tripping.
- Avoid extreme temperatures and moisture to prevent material damage.
- During use, ensure that hands are not trapped when adjusting the height.
- Do not place any heavy or sharp objects on the tabletop to prevent scratches and tipping over.
- To ensure safe use, do not place the table near naked flames or in direct sunlight.
- Fasten the table top in accordance with EU safety standards.
- Regularly check for mechanical functionality and safety and carry out necessary maintenance.
- Follow care and cleaning instructions to protect surfaces.
- Do not use the table as a ladder or for other unintended purposes.
- Keep the table away from liquids to prevent damage to surfaces and coatings.
- Watch out for sharp edges or splinters during assembly and use.
- Select a suitable height setting for ergonomic use and adjust regularly.
