### Safety Instructions:

- The product may be loaded with a maximum of 80 kg.
- Ensure that all cables are laid neatly to avoid tripping hazards.
- Children should be kept away from the electrical mechanism.
- Only use the table on a stable and level surface.
- Avoid using near water sources.
- Read and follow the installation and operating instructions carefully.
- Avoid electrostatic discharges during installation and use.
- Make sure that there are no objects under the tabletop to avoid crushing.
- Risk of electric shock: Use the recommended sockets and check the electrical system for damage.
- Regular inspection of the electrical components is recommended.
- Only operate the electric height adjustment in accordance with the instructions to avoid injury.
- The table should be secured against tipping over, ideally against a wall.
- The product is designed for adults and should not be used by children under the age of 10.
- Avoid uneven loads that could tip the table over.
- Make sure that the table is standing on a stable surface, especially at maximum height.
- Avoid improper use of the electrical components to prevent electric shocks.
- Choking hazard due to small parts; keep them away from children.
