Safety Instructions:

- Risk of suffocation due to improper use, especially with small parts.
- Risk of electric shock due to improper handling of electrical components. Ensure that the mains cable is not damaged and that electrical components are protected from moisture.
- Observe the maximum load capacity of 80 kg.
- Back pain due to unergonomic use; regular height adjustment recommended.
- The table must be placed on a stable, level surface to prevent it from tipping over.
- Set up out of the reach of children to minimise the risk of injury.
- Lay cables safely to avoid tripping hazards.
- Only use the height adjustment mechanism under adult supervision to avoid crushing injuries.
- Regular maintenance of the electrical components is recommended to ensure safety.
- Only use the product within the intended scope and use it in accordance with the instructions.
- Place the table away from direct contact with water to minimise electrical hazards.
- Ensure correct assembly in accordance with the instructions to ensure stability and safety.
- Safety instructions should be provided in understandable language.
- Observe the instructions for use to ensure correct installation and use.
- Do not allow children or unauthorised persons to operate the appliance.
- Clean the table regularly with suitable cleaning agents to prevent damage to the surface.
