Safety Instructions:

- Ensure that the table is placed on a stable and level surface to prevent it from tipping or wobbling.
- Do not exceed the maximum load capacity of 80 kg for the table to prevent damage.
- Avoid using the table in damp environments to avoid damaging electrical components.
- Only use the electric height adjustment with the intended operating elements and ensure that there are no persons or objects in the movement area to avoid injury.
- Lay cables safely to avoid tripping hazards and keep them away from hot surfaces.
- For children: Only use the product under adult supervision; not suitable for children under 3 years of age due to small parts and crushing hazard.
- Beware of the risk of electric shock due to improper use of electrical components; read and follow the instructions carefully.
- Check the table regularly for stability and safe components to avoid safety deficits.
- Ensure that the table is correctly aligned and stable to avoid accidents.
- Choking hazard due to small parts; caution with improper handling, especially by children.
- Coordinate the layout and use of the work surface with ergonomics in order to avoid damage to health.
- Follow the specified installation and operating instructions to prevent risks and malfunctions.
- Inform the manufacturer immediately in the event of recognisable defects or damage.
