Safety Instructions:

- Take care not to damage the electrical components of the desk; keep them away from water and moisture to avoid the risk of electric shock.
- Avoid loading the desk above the maximum load capacity of 120 kg, both dynamically and statically.
- Ensure proper installation and use according to the instructions provided to ensure the mechanical stability of the desk.
- Make sure that the desk is placed on a stable, level surface to prevent it from tipping over.
- Keep small children and pets away while using the height-adjustable mechanism; the table is not suitable for children under 12 years of age.
- Make sure that no cables are blocked to avoid tripping hazards and that the cable management is correct.
- Avoid leaving heavy objects on the tabletop for long periods of time to prevent deformation.
- The electric height adjustment should only be used in accordance with the manufacturer's instructions to avoid injury.
- Regularly check the stability and electrical components for damage or wear.
- Make sure that no body parts or objects get caught in the movement range when adjusting the height.
- Make sure that the table is not placed near radiators or other heat sources.
- To avoid damage, do not use the table in damp environments.
- The table should be checked regularly for mechanical stability; all parts must be safe and functional.
