Safety Instructions:

- Make sure that the table is stable and securely mounted to prevent accidents or tipping over.
- When assembling and adjusting the height, follow the assembly instructions and secure all connecting elements firmly to avoid the risk of crushing and incorrect assembly.
- The table is not suitable for children; supervision is required. There is an increased risk of injury for children under 3 years of age.
- Use the table in accordance with the manufacturer's instructions, avoid overloading and sharp objects on the table top.
- Keep the table away from water, other liquids and heat sources to avoid damage or danger.
- Regularly check the stability of the connections and screws to ensure safety.
- Secure the table to the wall or other furniture to prevent the risk of it tipping over.
- Avoid moving the table when fully loaded to minimise injury or damage.
- Ensure that all parts are correctly assembled and securely fastened before using the table.
- Do not use aggressive cleaning agents to clean the surface of the table.
- If the table is damaged, do not use it and have it repaired.
- Only use the table in accordance with its intended use and observe the safety information in understandable language in order to minimise risks.
