Safety Instructions:

- Risk of suffocation due to improper handling of cables or small parts.
- Risk of electric shock due to improper use of electrical components.
- Risk of injury if the height-adjustable mechanism is used incorrectly.
- Before first use, adjust the height of the desk to suit your individual ergonomics.
- Children should only use the desk under adult supervision.
- The table should only be placed on a stable and level surface to prevent it from tipping over.
- Avoid operating the table near water sources or damp environments to prevent short circuits and electric shocks.
- Maximum load capacity of the table: 80 kg dynamic and static. Do not exceed.
- Electric height adjustment should only be operated by one person to avoid accidents.
- Pull all cables safely through the integrated cable aperture to avoid tripping hazards.
- Ensure that body parts are not trapped while the table is being electrically adjusted.
- Read the installation and operating instructions carefully to ensure safety.
- Regularly check the stability of the table and tighten the screws if necessary.
- Do not use any aggressive cleaning agents on the table surface.
- Make sure that the table is not used as a platform to stand on.
- The volume during operation should be <55 dB(A).
