Safety Instructions:

- Regularly check the condition of the drip tray for cracks or damage that could impair its effectiveness.
- Ensure that the drip tray is placed on a stable, level surface to prevent it from wobbling or tipping over.
- Follow the safety data sheets for the substances used when storing hazardous substances in the tank.
- Only use the designated drums (200 litres) to avoid overloading the tray. Do not overload: Do not exceed a maximum of 4 drums of 200 litres each in accordance with the specifications.
- The drip tray is not intended for transport under load; only use pallet trucks or forklift trucks without load.
- Ensure adequate ventilation if the collected substances may emit volatile or harmful vapours. Only use the product in well-ventilated areas.
- Follow the local regulations for the disposal of hazardous substances collected in the sump.
- Avoid direct contact with harmful hazardous substances.
- The product is only suitable for the storage of up to 4 x 200 litre drums.
- When handling with a pallet truck or forklift truck, ensure that suitable safety precautions are taken and that the tub is driven under correctly to avoid accidents.
- Ensure that the tray is not in direct contact with strong chemicals that could attack the material.
- Warning: The drip tray is only designed for the safe handling of harmful hazardous materials and dangerous substances.
