Safety Instructions:

- The floor drip tray should only be used with containers up to a maximum of 20 litres.
- Protect from direct sunlight and extreme temperatures so as not to impair the service life of the material.
- Regular inspections for damage or corrosion are necessary to ensure safety and functionality.
- When used with chemical substances, the safety data sheets (SDS) of the chemicals used must always be observed.
- The tray must be cleaned immediately after use to avoid the accumulation of hazardous substances.
