Safety Instructions:

- Risk of injury when folding up: Ensure that no body parts or objects become trapped.
- When using the table on sensitive floors, please use underlays to avoid scratches.
- Load limit: Do not exceed a maximum of 150 kg to ensure stability.
- Use the table on a stable, level surface to prevent it from tipping over.
- Lockable castors must be secured before use to prevent unintentional rolling away.
- Check for correct and stable assembly before use.
- Not suitable for children under 3 years: Risk of suffocation and injury from small parts and mechanical parts.
- Check regularly for damage, especially before and after use.
- The table is not suitable for outdoor use and should be protected from excessive moisture.
- The lockable castors should only be used when locked to prevent slipping.
- To avoid the risk of injury, do not allow children access to the folding mechanisms and castors.
- Avoid overloading the castors: Overloading can lead to damage or injury.
- The table must not be overloaded to ensure stability.
- Take care to keep the table away from water and heat sources to prevent damage to the chipboard.
- Avoid using harsh cleaning agents on the tabletop to prevent damage.
- The table should always be used in accordance with the instructions provided.
- Ensure that hands and other parts of the body are kept away from the mechanisms when folding.
- Check that the castors are properly secured before use.
