Article Number: 463966

Safety Instructions:

- Do not use the appliance without adequate protection, especially when working with chemical cleaning agents.
- Ensure that the washbasin is not overloaded (maximum load capacity: 100 kg).
- The recommended temperature for cleaning is between 15 °C and 48 °C. Do not overheat the system.
- Make sure that the cleaning fluid is at least 60 litres to ensure effective cleaning.
- Avoid direct contact of the electrical parts with water to prevent the risk of electric shock.
- Keep the work area dry and clean to minimise the risk of slipping.
- Store the appliance in a dry and safe place when it is not in use.
