Article Number: 178002

Safety Instructions:

- Only use the appliance with the correct voltage specified on the rating plate.
- Ensure that the appliance is placed on a stable, level surface to prevent it from tipping over.
- Keep the appliance away from water and damp environments to avoid electric shocks.
- Only use original HP ink cartridges to prevent damage to the printer.
- The print head can become hot; do not touch it during the printing process.
- Keep the printer away from children and do not allow them to interact with the device unsupervised.
- In the event of problems or malfunctions, please contact HP Customer Service.
