

# Product Safety Information

**Hygiene pallet FP-H1, max. load 5000/1250 kg, 3 runners, closed upper & lower deck, L 1200 x W 800 x H 160 mm, recycled HDPE, light grey, 3 pieces**

**Manufacturer/Responsible Person:** FACH-PAK Germany GmbH, Lütke Haar 13, 59602 Rülten, Deutschland

**E-Mail:** info@fach-pak.de

Please note the technical data of the products!

**Article Number:** 464010

## Safety Instructions:

- The hygiene pallet is designed for use in food processing and pharmaceutical companies.
- The pallet should be checked regularly for cracks or damage so as not to jeopardise its load-bearing capacity.
- The weight of the pallet is 18 kg, so care should be taken to use the correct lifting technique when lifting.
- The pallet has a high static load capacity of 5000 kg and a dynamic load capacity that can pose a risk if handled incorrectly.
- If the pallet is used in high racks, care must be taken to ensure that the maximum load capacity of 1000 kg is not exceeded.
- The anti-slip edge protects the load, but the load limits should be observed when stacking the pallets.
