Safety Instructions:

- Make sure that the floor lamp is placed on a stable, level surface to prevent it from tipping over.
- Only use the lamp with the light source recommended by the manufacturer.
- The lamp must not be operated in a damp or wet environment in order to prevent electric shocks. The light is intended for use in dry indoor areas.
- When replacing the bulb, this should only be carried out by qualified personnel in order to avoid electrical hazards.
- Ensure that the floor lamp is not placed in front of furniture or other objects that could impair heat dissipation.
- Avoid direct contact with hot surfaces during operation.
- Beware of electric shock: The light contains electrical components.
- Do not immerse in water or use in wet conditions.
- Do not block: Do not cover or block the motion and daylight sensor.
